Cycle Bundle Updates

The Cycle Bundle v3.1.0 contains the following new functionality in this release. Please consult the Cycle Bundle's User Guide for additional details.

- **New!** Blue Yonder Mobile Application Support **(2020.1.1+ and 2019.1.1.12+ support ONLY)**
- Support for Blue Yonder 2019.1.1 and **New! 2020.1.1** releases
- **Expanded** Test Case coverage
- Defect Corrections and Stability updates

Cycle Bundle Reference Configurations

Cycle Bundle v3.1.0 was developed using the following configurations:

- WMS - Blue Yonder 2019.1.1.12

- WMS – Blue Yonder 2020.1.1.0

- Blue Yonder Interfaces – Terminal, Web, Mobile, Integrator, and MOCA

- Cycle client compatibility – **Cycle 2.7.1 (REQUIRED)**

- Google Chrome Browser – v86.0.4240.111

- Microsoft Edge Browser – v86.0.622.51

- Narrow and wide terminal configurations

Bundle Upgrade Important Notes

1. Automatic upgrade from a Cycle Bundle release prior to v3.0.0 **is not supported**. Please consult with your Tryon Solutions representative for additional information.

2. Automatic upgrade from Bundle v3.0.x to the v3.1.0 release **is not supported**, please see manual upgrade instructions in the Cycle Bundle v3.1.0 Upgrade Notes.

Bundle Important Notes

1. Execution of the Bundle and its Test Cases will interact with your configured WMS. The Bundle should **ONLY** be run in **non-production** environments.

2. Because of changes in MOCA environment variable processing, **Cycle 2.7.1 or greater is required for use with Cycle Bundle v3.1.0.**

3. Because of changes in MOCA environment variable processing**, all Custom MSQL scripts/datasets will need to be modified for use.**

4. It is **strongly recommended** that all customers using Bundle v3.0.x **upgrade to v3.1.0**.

5. **All customizations to the Cycle Bundle should be stored in the Custom** directories of the Cycle Bundle to maintain the integrity of the Cycle Base Bundle and to assist in the upgrade process.

6. There is **no installer for the Bundle**, the user should unzip the provided ZIP file onto a file system on your PC and follow setup and installation, configuration, and upgrade steps in the Cycle Bundle's Upgrade Guide.

7. User should **read the complete Cycle Bundle v3.1.0 User Guide** for information about how to setup and configure the Bundle for your WMS testing environment.

8. User should read the complete **Cycle Bundle Upgrade Notes for Blue Yonder WMS** for information how to install and upgrade to this release.
